

Places.”

A bounded significant occurrence with theatrical unity - has beginning, middle, end.
Not just an event but a scene. From grammar: “Entities experience in
Places.”

Context where action happens. Can be physical (office), digital (Slack channel), or
conceptual (sprint planning). From grammar: “Entities experience Moments in
.”

Container holding sequences of Moments. The frame, not a fourth substrate. Has

Inferred risks, assembled projects.

The 8-stage lifecycle all objects follow:

1.

File-based async communication pattern for external advisors. Inbox/outbox folders with manifest tracking.

Scheduled synchronization between parallel tracks (e.g., MUX-VISION defines, MUX-TECH implements).

4. : Proactive surfacing, push insights
