
Questions?

Remember: This is alpha software with a guided setup experience. The wizard handles most complexity, but you're still testing early prototype software.

If guided setup seems overwhelming, a hosted version is planned for 2026.

Thank you for being an early adopter and helping us perfect the onboarding experience! 🚀

Last updated: October 24, 2025

Software version: 0.8.0-alpha

Guide version: 2.0 (Guided Setup)
